

THE POWER BEHIND YOUR PROCESS

# Rest Easy With 24-Hour **SERVICE & SUPPORT**

## **Quality Service Is Our Best Product**

Everyone talks about service, but year after year, TDM proves that taking care of our customers is top priority. Our sales team may sell you the first piece of equipment, but it's our service team that's there for the long haul! We do it all, from providing preventative maintenance and upkeep, to complete equipment overhauls. Our service techs have the skills to keep your

equipment running smoothly. Available 24/7, we can be there to quickly service your equipment and reduce downtime. An experienced service team, fully equipped shop, extensive parts inventory, service vehicles for on-site repairs and a rental fleet to keep you up and running are just a few reasons why TDM's service and support is unmatched in the industry.

- AST
- Deltech
- Beko
- Boerger

## Since 1983

Trask-Decrow Machinery was incorporated in 1983 as the authorized distributor for Ingersoll-Rand, serving all of Maine & northern New Hampshire. In 2002 we acquired a southern NH industrial pump distributorship, which extended our territory throughout New England.

In 2011, we moved to our current location, an expansive 25,000 square foot building on 8 acres in Scarborough, Maine. TDM's facility includes administrative offices, a warehouse, parts, service & rental departments all under one roof. This move has increased operating efficiency and response time. Our shop is an impressive 10,000 square feet with two 4-ton bridge cranes and a full fabrication area, allowing us to handle the most demanding jobs with ease.

Today, TDM employs 36 people who are fully engaged in the sales, service and support of industrial pumps, air compressors, and related equipment.
